

Cooperative Agreement Quality Metrics

In accordance with W. Va. Code §16-29B-28(g)(1)(B), hospitals that are party to a cooperative agreement involving the combination of hospitals must disclose the performance of each hospital with respect to a representative sample of quality metrics selected annually by the WV Health Care Authority (Authority). The following table represents the quality metrics selected by the Authority. Each hospital that is party to a cooperative agreement must complete the form below and submit it to the Authority.

Hospital Name: _____

Fiscal Year: _____

Measure Name (NQF#) *	Most Recent Result (National Average) *	Hospital's Result	Variance from National Average
Methicillin-Resistant Staphylococcus aureus (MRSA) (NQF#1716)	0.96		
Central Line-Associated Bloodstream Infection (CLABSI) (NQF#0139)	0.54		
Specific Surgical Site Infection (SSI) - Colon Surgery (NQF#0753)	1.03		
Clostridium Difficile Infection (CDI) (NQF#1717)	0.93		
Catheter-Associated Urinary Tract Infection (CAUTI) (NQF#0138)	0.65		
Rating of Hospital (% of respondents choosing a 9 or 10 out of 10) (NQF#0166)	72.3%		
3-Item Care Transition Measure (CTM-3) (NQF#0228)	52.5%
