West Virginia Health Care Authority

Vision

All West Virginians will have appropriate access to a continuum of affordable, quality, coordinated health care services.

Mission

The West Virginia Health Care Authority will work with public and private sector entities to:

- Protect citizens from unreasonable increases in the cost of health care services;
- Assure the collection, analysis, and dissemination of health related information to citizens, providers, policy-makers and other customers;
- Promote appropriate distribution of health care services;
- Promote quality in health care services; and
- Promote the financial viability of the health care delivery system.

EXECUTIVE SUMMARY

HOSPITALS

In the aggregate, West Virginia hospitals showed a profit of \$72.8 million which was 1.9% of net patient revenue (NPR), down from \$102.9 million in FY 2004.

Acute Care Hospitals

• The total profit for the 36 general acute care hospitals was \$59.3 million (1.7% of NPR), down from \$83.6 million (2.5% of NPR) in the prior year.

Critical Access Hospitals (CAH)

• Eleven reported profits, but as a group, CAHs had a loss of \$1.3 million (0.6% of NPR). This is an improvement from the \$2.3 million loss in FY 2004. Excluding Montgomery General, the FY 2005 improvement would have been more dramatic with an overall profit of \$1.7 million.

Long-term Acute Care Hospitals (LTCH)

• The two facilities in FY 2005 reported a loss of \$961,000 (5.7% of NPR).

Psychiatric Hospitals

• The four hospitals had an aggregate loss of \$5.2 million, compared to a \$4.9 million gain in FY 2004.

Rehabilitation Hospitals

 These hospitals (except the state-operated facility) continued to demonstrate profitability. The private facilities reported profits of \$24.7 million (26.5% of NPR) compared to \$22.2 million (24.9% of NPR) in FY 2004. The stateoperated hospital had a loss of \$3.8 million in FY 2005.

OTHER FACILITIES

Nursing Homes

- The state's 106 nursing homes reported aggregate profits of \$36.2 million (5.8% of NPR), an increase from the \$12.8 million reported in FY 2004.
- Aggregate net patient revenue increased \$46.7 million in FY 2005; expenses increased \$23.8 million.

Home Health

Overall, home health agencies reported total losses of \$919,000 on \$86.9 million total revenue; although 37 of the 73 agencies were profitable.

1

Two home health agencies were acquired during FY 2005.

Hospice

- Aggregate hospice profits were \$5.7 million, compared to \$4.7 million in FY 2004.
- Non-operating revenue, which included significant contributions, exceeded income from patient services.

Behavioral Health Facilities

- Seventy-five behavioral health providers reported aggregate profits of \$7.7 million, 1.6% of total revenue.
- The number of facilities reporting profits decreased from 48 in FY 2004 to 43 in FY 2005.

Methadone Treatment Facilities

• The aggregate profit for the eight facilities was \$6.8 million, 35.4% of total revenue.

Ambulatory Surgical Centers (ASC)

• Ten reporting certified ASCs had an aggregate profit of \$3.7 million, 17.9% of total revenue.

Overview

The West Virginia Health Care Authority (Authority) collects and disseminates financial data on health care facilities, including hospitals, nursing homes, home health agencies, hospice agencies, behavioral health centers and ambulatory surgical centers. The reporting period is the facility fiscal year which ended during the calendar year. Therefore the data are reflective of a time span rather than of one point in time, and should be interpreted as such. The data are presented here as they were reported by the facilities. While the manner and type of information submitted varies with the type of facility, efforts have been made to produce reasonable comparisons. Where the number of facilities has changed since the previous year, a "same-facilities" comparison is often used.

This report includes data from some 360 facilities providing services to West Virginia residents in FY 2005.

Number of Facilities o	r Agencies Operating	
Type of Facility or Agency	FY 2004	FY 2005
Hospitals	65	66
General Acute	37	36
Critical Access	17	18
Long-term Acute	1	2
Psychiatric	4	4
Rehabilitation	6	6
Nursing Homes	106	106
Home Health Agencies	76	74
Hospice Agencies	20	20
Behavioral Health	85	84
Behavioral Health Centers	77	76
Methadone Treatment	8	8
Ambulatory Surgery Centers	10	10
Total	362	360

Revenue

The facilities had an aggregated total of patient services revenue, other operating and non-operating revenue of \$5.3 billion, which was an increase of 4.5% over FY 2004.

Type of Facility or Agency	Revenue (in	thousands)
Type of Facility of Agency	FY 2004	FY 2005
Hospitals	\$3,839,990	\$3,981,679
General Acute	3,463,947	3,571,497
Critical Access	181,641	214,019
Long-term Acute	11,489	16,964
Psychiatric	81,163	74,732
Rehabilitation	101,750	104,467
Nursing Homes	564,505	627,016
Home Health Agencies	85,306	86,912
Hospice	46,789	56,080
Behavioral Health Centers	482,902	491,915
Behavioral Health	467,531	472,653
Methadone Treatment	15,371	19,262
Ambulatory Surgery Centers	18,798	20,886
Total	\$5,038,290	\$5,264,488

Hospitals alone accounted for 75% of this revenue; ambulatory surgical centers for less than 0.4%.

EROE

Aggregate profits for all facilities were \$135 million, down 5.8% from FY 2004. The term profit (loss) is used here interchangeably with excess (deficit) of revenue before taxes and extraordinary items (EROE), and is applied to all facilities, including not-for-profits. Hospitals and behavioral health centers had lower profits; nursing homes, hospice agencies and ambulatory surgery centers had increased profits; home health agencies decreased their losses.

Type of Facility or Agency	EF	ROE	MARC	SIN
Type of Facility of Agency	FY 2004	FY 2005	FY 2004	FY 2005
Hospitals	\$102,860	\$72,762	2.7%	1.8%
Nursing Homes	15,424	38,882	2.7%	6.2%
Home Health Agencies	-1,458	-919	-1.7%	-1.1%
Hospice	4,747	5,734	10.1%	10.2%
Behavioral Health Centers	18,329	14,500	3.8%	2.9%
Ambulatory Surgery Centers	3,127	3,731	16.6%	17.9%
Total	\$143,029	\$134,690	2.8%	2.6%

Together, hospitals and nursing homes comprise 87.5% of the reported revenue and 82.9% of the total profit.

Utilization

Inpatient utilization of same-facilities nursing homes decreased by less than 1% between FY 2004 and 2005. Nursing homes may provide minimal outpatient services, such as physical therapy to discharged patients. Hospital outpatient services continue to grow, although inpatient revenues continue to contribute the larger share of the total. There were more than 5.6 million outpatient visits in FY 2005, an increase of 3%. Hospital inpatient utilization showed little fluctuation for several years, but there was a 3% decrease in discharges in FY 2005. The greatest change was a 7% drop in the non-government segment.

	Hospit	al Discharç	ges By P	ayor Class		
Payor	Medicare	Medicaid	PEIA	Other Govt	Non-Govt	Total
FY 2005	147,624	52,125	11,493	7,470	74,381	293,093
FY 2004	151,112	51,896	12,167	7,675	79,995	302,845
Percent Change	-2.3%	0.4%	-5.5%	-2.7%	-7.0%	-3.2%

Discharges covered by government payors decreased 2%, but the loss in the non-government categories (commercial, Blue-Cross, AARP, unions, ERISAs, self-pay) resulted in a 1% increase in the proportion of government coverage, bringing it to 75% of discharges and 61% of revenue.

Government payors dominate in nursing home services, as well, where Medicare and Medicaid alone cover 87% of patient days. Hospitals and nursing homes report payor classes somewhat differently, but general comparisons are still possible. Nursing homes monitor volume based on patient days. Medicaid, with 2.4 million inpatient days (74%), is by far the largest; with Medicare at 13%. Medicare covers only skilled nursing services.

HOSPITALS

In aggregate, West Virginia's 66 hospitals reported a decline in financial status in FY 2005. Profit (loss) is used here to mean excess (deficit) of revenue over expenses (EROE) prior to taxes and any extraordinary gains or losses. It is used for not-for-profit as well as for-profit hospitals.

The profit for all hospitals was \$72.8 million, or 1.9% of net patient revenue (NPR). This marked a significant decrease from FY 2004, when hospitals reported profits of \$102.9 million (2.8% of NPR). Detailed information on aggregate and individual hospital income as well as utilization is shown in Tables 7-21.

West Virginia licenses five types of hospitals: general acute care, critical access (CAH), psychiatric, rehabilitation and long-term acute care (LTCH). Each serves different purposes and different populations.

Unless otherwise indicated, this narrative uses the same-facilities data when making comparisons to the prior year. Because of changes from general acute care to CAH and the addition of a new LTCH, some "same-facilities" comparisons are also used for those categories.

General Acute Care Hospitals

These hospitals provide primarily short-stay medical-surgical services, although they may include units providing a wide range of other services. There were 36 general acute care hospitals in FY 2005. Montgomery General converted to critical access from general acute care in FY 2005, and is included in the CAH category. Jefferson Memorial also became a CAH, but in December of 2005; it was included with the general acute hospitals.

The total acute care hospital profit was \$59.3 million (1.7% of NPR), down from \$83.6 million (2.5% of NPR), in FY 2004. The decreased profitability in FY 2005 was a result of a \$3.1 million decrease in other revenue, an increased loss on patient services of \$19.0 million and an uncompensated care increase from 5.6% in FY 2004 to 6.0% in FY 2005.

Twenty of the 36 acute care hospitals reported a profit. Gains ranged from \$161,000 (Eye & Ear Clinic) to \$19.7 million (WVU Hospitals). Losses ranged from \$32,000 (Wetzel County) to \$8.1 million (St. Joseph's Parkersburg).

In FY 2005, five hospitals had margins (profit as a percent of NPR) of 5% or higher. These were, in order, Greenbrier Valley (14%), United Hospital Center (10.9%), Stonewall Jackson (7.8%), St. Joseph's Buckhannon (6.6%) and WVU Hospitals (5%).

Overall losses on patient services continued, with an aggregate of \$97.1 million (2.8% of NPR), compared to \$75.9 million (2.3% of NPR) in FY 2004. Twenty-five hospitals reported losses on patient services ranging from \$9,000 (0.02% of NPR) at Pleasant Valley to \$18.5 million (3.5% of NPR) at CAMC. The largest percentage loss on patient

services was 19.1% on NPR (\$7.2 million) at Putnam General. Eleven hospitals reported profits on patient services ranging from \$94,000 (3.1% of NPR) at Thomas Memorial to \$7.8 million (13.6% of NPR) at Greenbrier Valley.

Losses on patient services were accompanied by decreases in other revenue. Three hospitals reported a decrease in other revenue in excess of \$1 million for FY 2005. CAMC, Davis Memorial, and WVU Hospitals reported decreases in revenue ranging from \$1.5 million to \$7.9 million.

Overall acute care expenses equaled \$3.5 billion in FY 2005; an increase of 4.6% over FY 2004. Most of this is attributable to employee compensation and benefits, prescription drugs, and medical/surgical supplies.

Long-term debt, particularly bonded debt, held by acute care hospitals has increased significantly over the past several years. Renovation and replacement of facilities has been spurred by aging physical plants, clinical technology innovations, information technology advances, and patient preference for private rooms. The majority of the bond debt is accompanied by restrictive bond covenants. A number of acute care hospitals will face significant financial challenges over the next few years managing the new debt.

Several hospitals face considerable challenges to their operations, including declining occupancy, aging facilities, decreasing reserves and severe losses. Some are located in areas of severe economic hardship, resulting in an unfavorable payor mix. Rates of return have not been adequate to maintain financial viability nor do they have the financial reserves or flexibility to sustain continued losses.

Critical Access Hospitals

Critical Access is a Medicare designation for reimbursing small community hospitals for the provision of limited acute care services in combination with swing-bed and skilled nursing care. In FY 2005, the 18 critical access hospitals (CAH) experienced mixed results in financial performance.

Eleven critical access hospitals reported profits, up from 10 in FY 2004. Critical access hospitals typically have small margins and, as a group, had a loss of \$1.3 million (0.6%) in FY 2005. Five hospitals reported profits on patient services, ranging from \$52,000 (Boone Memorial) to \$1.3 million (Hampshire Memorial). Losses on patient services ranged from \$32,000 (Morgan County War Memorial) to \$3.2 million (Montgomery General). Several hospitals have experienced losses for consecutive years. Those losses will be difficult to offset without infusions of non-operating revenues.

Increases in net patient revenue of \$11.7 million (6.7%) outpaced increases in operating expenses of \$7 million (3.8%) for FY 2005. Yet, challenges remain for CAHs. These facilities have experienced the same pressures as general acute care facilities to address manpower shortages while maintaining cost controls.

Long-term Acute Care Hospitals

Long-term Acute Care Hospitals (LTCH) are generally defined as hospitals with an average Medicare inpatient length of stay greater than 25 days. These facilities provide extended care including comprehensive rehabilitation, respiratory therapy, head trauma treatment and pain management.

Two LTCHs were operating in West Virginia in FY 2005. Both facilities are for-profit and privately owned. Select Specialty began providing services during 2001 and is located within CAMC. Cornerstone Hospital of Huntington opened in March 2005 and is situated within St. Mary's Hospital.

The data presented for Cornerstone cover the period July 15, 2005 through December 31, 2005. The facility reported a partial-year profit of \$80,000 with income from patient services of \$78,000. Select Specialty completed its fourth year of operation and recorded a loss of \$1 million, (7.7% of NPR). For FY 2003 and 2004 the facility reported profits of \$144,000 (1.4% of NPR) and \$768,000 (6.7% of NPR), respectively. The FY 2005 decline may be attributed to the substantial increase in management fees charged by the parent corporation. This expense was \$1.3 million in FY 2003, \$0.9 million in FY 2004, and approximately \$3 million in FY 2005.

Psychiatric Hospitals

Two private and two state hospitals operate as free-standing psychiatric hospitals in West Virginia. While both the private and state hospitals treat psychiatric patients, they operate very differently. For the most part, private hospitals admit voluntary patients, while state-operated hospitals generally do not.

Overall, the four reported a loss of \$5.2 million after a gain of \$4.9 million in FY 2004 and losses of \$2.5 million in FY 2003. The two state hospitals (Sharpe and Mildred Bateman) reported an overall loss of \$4.7 million. Sharpe reported a loss of just over \$3 million. The two state hospitals reported combined deficits of \$50.5 million for patient services. The state hospitals operate at full capacity with extremely high levels of uncompensated care.

Of the two private hospitals, River Park reported a profit of \$13,000 and Highland reported a loss of \$531,000. Only River Park, a for-profit facility, has consistently reported profits on patient services for the last five fiscal years. Highland reported a 5.6% decrease in its patient discharges with an average occupancy of 36.7%, down from 37.9% in FY 2004. River Park's discharges increased 11.9% and its occupancy rate was 65.1%, up from 55.5% in FY 2004.

In January 2005, Medicare implemented a prospective payment system for inpatient psychiatric facilities to be phased in over three years. Reimbursement is based on a variable per diem amount with an initial base rate of \$575.95 which is adjusted for rural facilities with emergency departments, patient age, coexisting diseases (comorbidities), and Diagnosis Related Group (DRG). The rate is also higher for the first few days of the hospital stay.

Rehabilitation Hospitals

In FY 2005 there were six rehabilitation hospitals operating in West Virginia. Five facilities are for-profit, four of which are owned and operated by Health South, Inc. The remaining for-profit facility is Peterson Rehabilitation and Geriatric Center, owned and operated by Guardian Eldercare. One hospital, WV Rehabilitation Center is state owned.

For FY 2005 the for-profit facilities reported overall profits of \$24.7 million (26.5% of NPR). This is an increase in profits over FY 2003 and FY 2004 of \$8.5 million and \$2.5 million, respectively. The significant boost in profitability is due, in part, to the FY 2004 increase of 3.2% in Medicare payments for treatment of strokes, spinal cord injury or other conditions requiring extensive therapy.

The state-owned facility, WV Rehabilitation Center, has reported major losses on income from patient services for the last three years. In FY 2005 the facility's loss was \$9.7 million. Due to other revenues of \$5.8 million, the overall loss was substantially reduced, to \$3.8 million. West Virginia Rehabilitation Center closed its inpatient services effective June 30, 2006.

NURSING HOMES

The FY 2005 Annual Report of Nursing Homes includes information from each of the 106 long-term care facilities operating in the state. The data are provided as they were reported. The data are aggregated in two ways: for all facilities and for "same-facilities" (facilities with data in all years). The same-facilities comparison is made because the FY 2004 data do not include Logan Park Care Center (Logan) and Mingo Health Care Center (Mingo). Unless otherwise indicated, this narrative uses the same-facilities data when making comparisons to the prior year.

In conjunction with the West Virginia Health Care Association, a methodology was developed for the allocation of operating expenses among the different payor categories. This methodology standardizes the distribution of expenses, which allows for improved reporting and analysis of financial performance by payor category. The methodology allocates routine operating expenses, by using the percentage of patient days for each payor category. Routine expenses account for approximately ninety percent of total expenses. The remainder are ancillary expenses, and are allocated on the basis of the percentage of net ancillary patient revenue to total ancillary patient revenue.

The majority of nursing homes are for-profit facilities. Several of the larger corporate entities that own or operate facilities in the state are AMFM Holding Company (11), Beverly Enterprises (3), Diversicare Management Services (2), Genesis Eldercare (23), HCR Manorcare (7), Mariner Post-Acute (1), and Sun Healthcare Group (7). Included in the 106 long-term care facilities are four state-operated facilities: Hopemont Hospital, Lakin Hospital, John Manchin, Sr. Health Care Center; and Pinecrest Hospital. Logan Park Care Center and Mingo Health Care Center filed for bankruptcy in 2004; the facilities are still operational and have submitted reports to the Health Care Authority for FY 2005.

Increases in net patient revenue (NPR) outpaced increases in operating expenses in FY 2005 by \$22.9 million. This is a reversal from FY 2004, when increases in operating expenses were greater by \$7.3 million. Net patient revenue increased \$46.7 million (8.3%) in FY 2005, while expenses increased \$23.8 million (4.3%). The result was an increase in income from patient services of \$22.9 million, compared to a \$7.3 million loss in FY 2004. Factors contributing to this increase include a 7.8% increase of Medicare revenue with only a 4.3% increase in overall operating expenses. This resulted in profits growing by \$23.1 million to \$36.2 million (5.8% of NPR). Including Logan and Mingo, aggregate profits were \$36.1 million (5.8% of NPR). The number of profitable facilities reporting rose from 76 to 84.

Woodlands Retirement Community experienced the largest negative EROE, \$1.4 million, in FY 2005, compared to its \$607,000 loss in FY 2004. Three of the four state-operated facilities had negative EROEs in FY 2005. Pinecrest Hospital decreased a negative EROE from \$4.9 to \$1.2 million in FY 2005. Nine facilities with negative EROEs in FY 2004 showed positive EROEs in FY 2005.

Of the 93 facilities that report Medicare patient services, 84 (90%) showed a profit on those services. Of the 104 facilities with Medicaid patients, 57 (55 %) reported a profit on those services. Aggregate income from patient services for Medicare and Medicaid were \$24.4 million and \$6.9 million respectively. As a percent of NPR, the margins for Medicare and Medicaid were 18.8% and 1.6%, respectively.

Utilization of 3.3 million total patient days was reported for FY 2005. This is consistent with utilization in the prior year. Medicare days increased by 2.8% and Medicaid days decreased a slight 0.2%. In FY 2005, Medicare and Medicaid accounted for 11.9% and 74.9%, respectively, of total days.

Tables 25-28 detail nursing home finances and utilization.

West Virginia Nursing Homes

Nursing Homes (106)

HOME HEALTH

The FY 2005 Survey of Home Health agencies was completed by 73 home health agencies, including those in Kentucky, Maryland and Ohio that serve West Virginia residents. This was the second year that the survey was filed on line. The data are provided as reported by the facilities.

Overall, home health agencies reported losses of \$919,000, 1.1% of \$86.9 million in total revenue, although 37 of the 73 agencies were profitable. Fiscal year 2005 is the third consecutive year for aggregate losses. In FY 2004, losses were \$1.5 million, 1.7% of total revenue of \$85.3 million and in FY 2003, \$547,000 for 0.7% of total revenue of \$82.2 million.

Analysis of home health agencies by type of ownership shows mixed results. The agencies are subdivided by the following ownership categories: county-owned, proprietary and non-profit. Hospital-based agencies are discussed separately from other agencies, as the structure is significantly different and they historically experience the greatest losses.

The 11 county-owned agencies reported total losses of \$226,000, 4% of total revenue. This followed losses of \$1.2 million in FY 2004 and \$325,000 in FY 2003. Six of the 11 county-owned agencies reported profits for FY 2005, an increase of four agencies from the previous year.

Total profit reported by the proprietary agencies was \$5.5 million, 14.9% of total revenue; up 13.8% from \$4.8 million in FY 2004. Of the 21 proprietary agencies, 16 reported profits. This was the most profitable category of home health agencies.

Five non-profit agencies reported combined losses of \$364,000 with total revenue of \$5.2 million. Only one non-profit home health agency was profitable, with an EROE of \$231,000, 6.6% of \$3.6 million in total revenue. The six non-profit agencies reported a combined loss of \$133,000 on total revenue of \$8.8 million.

The number of non-profit hospital-based agencies losing money outnumbered profitable agencies 18 to 13. Total losses for the year in this segment grew to \$5.5 million from losses of \$4.1 million for FY 2004 and \$3.8 million for FY 2003.

Of the four proprietary hospital-based agencies, three reported aggregate losses of \$525,000, half of total revenue. The fourth agency had a small profit of \$5,000, down 50% from FY 2004. The sector reported a combined loss of \$520,000, 47% of total revenue of \$1.1 million. Despite significant losses, hospitals often choose to provide home health care in order to broaden their range of services.

Two home health agencies changed hands during FY 2005. The Healthfield Group, Inc. acquired Access Home Health located in Bluefield and Dunbar. West Virginia Health Care Group acquired Home Care Plus, in Lewisburg. Additional acquisitions of home health agencies occurred during FY 2006 and will be discussed in the 2007 Annual Report.

Table 29 provides detail on home health activity.

WV Home Health Agencies By County

HOSPICE

The Health Care Authority collected data from 20 West Virginia hospice organizations using the Annual Hospice Survey.

In FY 2005, total revenue increased \$9.3 million (19.9%) from FY 2004, while expenses increased \$8.9 million (21.5%). EROE equaled \$5.7 million, an increase in profitability of \$1 million (20.8%). Revenue from patient services was \$1.8 million. Other operating and non-operating revenues were greater, \$3.9 million. Non-operating revenues include contributions from fund-raising campaigns and other donations.

Of the 20 agencies reporting, 11 reported losses in income from patient services. Of those agencies reporting a loss from patient services, two had a positive EROE as a result of significant other and non-operating revenue.

Utilization of hospice services grew in FY 2005. The number of patients served increased by 8% and patient days increased by 15.4%.

Table 30 presents hospice data for FY 2005.

BEHAVIORAL HEALTH

Eighty-three behavioral health facilities filed financial information with the agency for FY 2005, a decrease of two from FY 2004. Sugar Creek Children's Center closed in February 2005. One provider, Timberline Health Group filed chapter 11 Bankruptcy in February 2005 and converted to chapter 7 Bankruptcy in March 2006. Mainstream Services, Inc. began providing services in October 2004. Eight methadone treatment facilities operated in West Virginia in FY 2005. These treatment centers are discussed independently.

Behavioral health center financial information for the 75 facilities showed aggregate profits of \$7.7 million, 1.6% of total revenue. Four facilities accounted for 85.2% of the profit: Northwood Health Systems, REM-WV, RSCR-WV, and VOCA Corporation of America.

The aggregate profits for FY 2005 indicate a decline of \$5.0 million from FY 2004. Profits from Burlington United Methodist Family Services, Pressley Ridge and Westbrook Health Services decreased by \$5.6 million, with Burlington reporting a decrease of \$4 million. It received one-time gifts and donations of \$4.5 million in FY 2004. The number of centers reporting profits decreased from 48 in FY 2004 to 43 in FY 2005. Nineteen facilities reported profits for the last three consecutive years, 19 reported losses during two of the last three years, and 12 facilities reported losses for all three years.

Methadone Treatment Facilities

In FY 2005, all eight methadone treatment centers in West Virginia had been operational for one year or longer. Wheeling Treatment Center, the only facility to report a loss, showed a deficit of \$198,000. The aggregate profit totaled \$6.8 million, 35.4% of total revenue of \$19.3 million. In FY 2004 the aggregate profit was \$5.6 million, 36.5% of total revenue. Seven facilities reported profits ranging from \$184,000 at Parkersburg Treatment Center to \$2.1 million at Huntington Treatment Center.

Table 31 contains behavioral health details.

West Virginia Behavioral Health Centers & Methadone Treatment Centers

Legend:

- Behavioral Health Centers (78)
- Methadone Treatment Centers (8)

AMBULATORY SURGERY CENTERS

Ambulatory surgical centers (ASCs) are distinct entities that provide surgical services to patients not requiring hospitalization. There are 10 certified ASCs in West Virginia, all of which are for-profit facilities. Total revenue for FY 2005 was \$20.9 million, an increase of \$2.1 million over FY 2004. Expenses equaled \$17.2 million, an increase of \$1.5 million. The growth in revenue over expenses resulted in an increase in profit of \$605,000 (19.3%) over FY 2004. The overall margin (profit as a percent of total revenue) was 17.9%. For FY 2005, six centers experienced profits, three had a loss and the remaining center had a zero margin.

Tables 32 and 33 show ambulatory surgical center financial and utilization data.

Note: A hospital files a standard application to request a rate increase based on its internal data; it files under benchmarking for a rate determined by comparing its costs and charges to others in its peer group.

^{*} To file a rate based on the benchmarking methodology, a hospital must use this ranking to determine the increase it may request. The maximum rate is determined by averaging the percentages calaculated from the charge and cost determinations. This ranking is a restatement made subsequent to the passage of a new Benchmarking Rule passed by the 2005 WV Legislature, which provided for three peer groups based on case-mix. Only hospitals with fiscal years ending on 6/30/06 and 9/30/06 used this ranking.

^{**} Adjusted by the hospital's FY 2004 all payor case-mix index.

* FY 2004 National		23.0	25.0	2.0

^{*}Source: Solucient, The 2006 Comparative Performance of U.S. Hospitals: The Soucebook (FY 2004 data)

^{**}Beckley ARH increase was due to other significant increases in long-term debt, not as a result of bond transactions.

^{***}Jefferson increase was due to a \$1.8m mortgage payable in FY 2003, not bond transactions.

^{****}St. Luke's increase was due to \$2.5m related party Liabilities in FY 2001, not bond transactions.

Table 33 - CPT Codes and Descriptions:

- 11401 Excision, benign lesion including margins, except skin tag (unless listed elsewhere), trunk, arms or legs; excised diameter 0.6 to 1.0 cm
- 11441 Excision, other benign lesion including margins (unless listed elsewhere), face, ears, eyelids, nose, lips, mucous membrane; excised diameter 0.6 to 1.0 cm
- 29877 Arthroscopy, knee, surgical; debridement/shaving of articular cartilage (chondroplasty)
- 29881 Arthroscopy, knee, surgical; with meniscectomy (medial OR lateral, including any meniscal shaving) 20030 - Engline need inferior furbinate(s), therefore the
- 43200 Esophagoscopy, rigid or flexible; diagnostic, with or without collection of specimen(s) by brushing or washing (separate procedure) 30930 - Fracture nasal inferior turbinate(s), therapeutic
- 43239 Upper gastrointestinal endoscopy including esophagus, stomach, and either the duodenum and/or jejunum as appropriate; with biopsy, single or multiple 15378 - Colonoscopy, flexible, proximal to splenic flexure; diagnostic, with or without collection of specimen(s) by brushing or washing, with or without colon
- 45385 Colonoscopy, flexible, proximal to splenic flexure; with removal of tumor(s), polyp(s), or other lesion(s) by snare technique

decompression (separate procedure)

- 64475 Injection, anesthetic agent and/or steroid, paravertebral facet joint or facet joint nerve; lumbar or sacral, single level
- 64721 Neuroplasty and/or transposition; median nerve at carpal tunnel
- 65855 Trabeculoplasty by laser surgery, one or more sessions (defined treatment series)
- 36170 Fistulization of sclera for glaucoma; trabeculectomy ab externo in absence of previous surgery
- 56172 Fistulization of sclera for glaucoma; trabeculectomy ab externo with scarring from previous ocular surgery or trauma (includes injection of antifibrotic agents)
 - 36821 Discission of secondary membranous cataract (opacified posterior lens capsule and/or anterior hyaloid); laser surgery (eg, YAG laser) (one or more stages) 36982 - Extracapsular cataract removal with insertion of intraocular lens prosthesis (one stage procedure), manual or mechanical technique (eg. irrigation and
- 56984 Extracapsular cataract removal with insertion of intraocular lens prosthesis (one stage procedure), manual or mechanical technique (eg, irrigation aspiration or phacoemulsification), complex, requiring devices or techniques not generally used in
 - 69436 Tympanostomy (requiring insertion of ventilating tube), general anesthesia and aspiration or phacoemulsification)

Glossary of Terms

Accounts Payable: Amounts owed to others for goods, services, and supplies purchased and received, but not yet paid for as of the balance sheet date.

Accumulated Depreciation: Amount charged to expense through the annual amortization of the cost of the property, plant, and equipment.

Bad Debt: Amount not recoverable from a patient following exhaustion of all collection efforts.

Capital Lease Obligations: Consists of a portion of the long-term debt obligations incurred for leased items such as equipment and other long-lived assets when leases meet criteria necessary for being capitalized.

Cash: Money in the bank available for immediate expenditure. This may include cash equivalents which are financial instruments that may be readily and quickly converted into cash.

Contractual Allowance: Accounting adjustment to reflect uncollectable differences between established charges for services rendered to insured persons and rates payable for those services under contracts with third-party payers. The amount of the discount from total charges negotiated by the health care provider with an insurer for the provision of health care services. Or, the difference between total charges and the reimbursement allowed by a governmental payer.

Charity Care: Uncompensated care given by a health care facility to indigent and medically-indigent people as part of a written mission or charity care policy. It does not include accounts written off as "bad debts" or thirty-party adjustments, including those for Medicare and Medicaid. This represents health care services accounted for on the accrual basis which were provided, but were never expected to result in cash inflows.

Cost Shifting: Charging more to some groups of payers to make up for losses in revenue from other groups of payers. Disproportionate redistribution of the difference between full charges and amounts received from certain payors by increasing charges levied upon other payors.

Current Maturities of Long Term Debt: Amounts payable on bonds, mortgage loans, capital lease obligations, and other long-term debts to be paid in the next 12 months.

Diagnosis-related Groups (DRGs): Classifications in a system to group patients by diagnosis, type of treatment, age, and other relevant factors. Hospitals are paid a set fee for treatment of patients in each DRG category regardless of resource utilization (within limits) under this prospective payment system.

Glossary of Terms (Cont'd)

Diagnosis-related Group (DRG) Case Weight: Measure of the relative average expected resource utilization or costliness of patient care in a particular DRG in comparison to the average costliness of all DRGs. A case weight of 1.0000 is given to a DRG with expected resource consumption equal to that of the average of all DRGs.

Excess (Deficit) of Revenue Over Expenses (EROE): Bottom line measure of residual income or (loss) that is generated from the aggregate revenues, expenses, gains, and losses of the facility due to the overall activities of the facility.

Fund Balance and/or Equity: Consists of tax-exempt corporation fund balances and proprietary corporation owner's equity including capital invested and retained earnings.

Gross Patient Revenue (GPR): Amount charged by the facility for services provided to patients. It is the standard charge made by the facility before discount and contractual allowances.

Inventory: Cost of supply items on hand that will be used in the next period. It may consist of medical supplies, surgical supplies, pharmaceutical supplies, food, and other supplies.

Long Term Acute Care Hospital (LTCH): Acute care hospital that provides care for patients who have been in an intensive care or short-term care setting and who require an extended length of stay (greater than 25 days). LTCHs are often referred to as a "hospital within a hospital".

Long-term Debt: Consists of notes payable to banks, revenue bonds payable, and, in some cases, capital lease obligations due to be paid at a date more than one year in the future.

Major Diagnosis Category (MDC): Grouping of DRGs in a higher category of medically related system classifications.

Net Patient Receivables: Amounts owed by patients less contractual adjustments and estimated allowances for bad debt.

Net Patient Revenue (NPR): Amount the facility receives or expects to receive from patients and/or third-party payors for the services provided by the facility less contractual adjustments, and allowances for Charity Care and Bad Debt.

Net Property, Plant, and Equipment: Remaining book value of physical assets such as buildings and equipment after subtracting accumulated depreciation.

Glossary of Terms (Cont'd)

Non-operating Revenue: Amounts the facility receives from items that are neither directly nor indirectly the result of treating patients or other operating activity. Examples of revenue in this category are investment income and donations.

Other Assets: Items not expected to be expended in the current period. These consist of items such as funds held for bond indenture requirements, investments for self-insured malpractice, and hospitalization programs.

Other Current Assets: Items expected to be expended during the current period. These consist of items such as short-term investments and current portion of assets.

Other Current Liabilities: Accrued expenses for wages and salaries, benefits, and interest.

Other Liabilities: Consists of items such as liabilities for self-insured malpractice, employee benefit programs (pension and health care), and inter-company payables for affiliated facilities.

Other Operating Revenue: Amount the facility receives from sales of items not directly resulting from treating patients. It includes items such as cafeteria sales and the sale of copies of medical records.

Other Receivables: Receivables from revenue sources other than patients. The receivable may consist of settlement amounts due from Medicare, Medicaid, or from other parties.

Pre-tax Income: Revenues minus expenses before income tax, and may also exclude extraordinary items.

Prepaid Expenses: Amounts already paid for the cost of items that will be expended in the current period. The prepaid expense may consist of items such as prepaid insurance.

Property, Plant, and Equipment: Historical cost of land, buildings, and equipment owned by the facility. It may also include capital leases, which are leases for the approximate life of the asset.

Swing Bed: Beds certified by Medicare for use in small hospitals as either general medical/surgical or skilled nursing beds with reimbursement based on the specific care provided. Swing beds provide small hospitals with greater flexibility to meet fluctuating demands for inpatient hospital and skilled nursing home care.

Total Assets: Total of all assets listed in the balance sheet.

Glossary of Terms (Cont'd)

Total Liabilities: Total of all liabilities listed on the balance sheet.

Total Liabilities and Fund Balances and/or Equity: Summation of the total liabilities and fund balance or equity shown on the balance sheet.

Total Operating Expenses: Amount recorded by the facility for items purchased or accrued as normal operating expenses. It includes, but is not limited to, items such as salaries, employee benefits, medical supplies, utilities, depreciation, interest on debt, income and provider taxes (if applicable), and all other necessary supplies.

Uncompensated Care: Amount of patient care provided without compensation or reimbursement, consisting of Charity Care and Bad Debt.
