Re: **Policy Statement 2004-2**
Small Business Insurance

This policy statement is issued to clarify the Authority's position with respect to the classification of the enrollees in the small business insurance plan.

Because the health care providers for the patients who are covered by this plan will be paid at the current PEIA rate, the Health Care Authority directs that the statistics, revenue and expenses associated with the plan be reported under the other governmental heading for rate review purposes.

Rate Review will not require the filing of the contract or contract amendments related to the product.

If you have any questions, please contact Margi High, Director of Rate Review at 558-7000 or via e-mail: mhigh@hcawv.org.
